

Salted Bovine Hides Export to Argentina

- Production facilities must be inspected and approved by the USDA APHIS Veterinary Services at least annually.
- For the slaughter facility (if applicable) use the FSIS establishment number as the official registration number.
- If the production (manufacturing) facility does not have an official APHIS approval number, for the “official registration number” on the certificate, enter “none” or leave blank.
- If the products are stored at the production facility prior to export, use the production facility information to complete the “storage facility” section.
- The hides endorsed with this certificate should be sourced from animals that were subjected to slaughter inspection at official slaughter establishments.
